

Multiple prescriptions - One simple list

For patients

How it works

1. GP/pharmacist initiates registration with you
2. Your scripts are automatically added and updated in the app
3. GP prescribes, pharmacist dispenses and you collect

- Scripts are stored in one secure digital list
- Helps to keep track of multiple scripts/repeats
- No more paper scripts or tokens lying around
- Pharmacy receives script digitally - no need for token or paper script
- You choose your pharmacy
- Safe, secure and easy to manage

Ask your GP or pharmacist about Active Script List today

Remember: check your contact details are up-to-date with GP/pharmacist
