

RISE4SKINCANCER LOCAL INFORMATION & ENGAGEMENT SESSIONS

Calling all GPs, Registrars, Locums, Practice Managers, Receptionists & GP Clinic Nursing Teams in the Loddon Mallee region!

Join a region-wide initiative that puts general practice at the centre of improving skin cancer care. From 2027, RISE4SkinCancer will provide practical tools, education, mentoring, and data-driven insights to help practices strengthen skin cancer detection, management, and referral pathways. Participating practices will receive capacity building support with time compensation, recognising the important role practices play in leading the design of better patient care across the Loddon Mallee.
